

USGBC Massachusetts Education Committee (Email)

Dear Commissioner Giudice:

As chair of trustees of a multi-family condominium building, and as chair of the BSA Sustainability Education Committee, and as former founding chair of the USGBC Massachusetts Chapter Education Committee, and as co-chair of the Back Bay Green Initiative, I have two

Recommendations:

1. To broaden the scope of your pilot program (see p. 7 of the document titled "An MPG Rating for Commercial Buildings ...") to remove the word rental after multi-family, and
2. To retitle the document to "An MPG Rating for Commercial and Multi-family Buildings".

Cordially yours,

Peter Papesch, AIA

Chair, BSA Sustainability Education Committee Former (founding) chair and current member, USGBC Massachusetts Education Committee Co-chair, Back Bay Green Initiative Member, BSA COTE
